Professional Summary

Frontend Developer with 1.5+ years of experience building scalable, high-performance web applications using React.js and JavaScript. Skilled in developing responsive user interfaces, integrating REST APIs, and optimizing application performance.

Hands-on experience delivering real-world projects including global event platforms, AI-powered applications, and full-stack e-commerce systems. Strong focus on clean UI development, performance optimization, and building user-centric, scalable solutions.

Professional Experience

Frontend Developer

Trasol Technologies & Events | Oct 2024 – May 2026

- Delivered 6+ production-grade web applications using **React.js**, ensuring high performance and responsiveness.
- Engineered reusable and scalable **UI components**, improving development efficiency and consistency.
- Integrated **REST APIs using Axios** to build dynamic, data-driven user interfaces.
- Optimized application performance by reducing unnecessary re-renders, improving load speed by ~20%.
- Implemented **mobile-first responsive design** ensuring cross-browser compatibility.
- Collaborated with backend developers and designers in **Agile environments** to deliver high-quality features.
- Contributed to debugging, performance tuning, and continuous improvement of applications.

Projects

AI-Powered Portfolio Builder (MERN + Gemini AI) - [Github](#)

- Developed a full-stack AI-driven web application using **React.js, Node.js, Express.js, and MongoDB**.
- Integrated **Gemini AI API** for dynamic content generation and personalized portfolio creation.
- Built interactive and responsive UI using React.js with real-time preview functionality.
- Designed RESTful APIs using Express.js to handle user data and AI-generated content.
- Implemented scalable database structure using MongoDB for efficient data management.

AN Paints – Full Stack E-commerce Application (MERN) - [Github](#)

- Developed a complete **full-stack e-commerce application using MERN stack (React.js, Node.js, Express.js, MongoDB)**.
- Implemented features including **product listing, cart management, wishlist, and user authentication**.
- Designed REST APIs for handling product data, user sessions, and order processing.
- Built reusable frontend components and responsive UI for seamless user experience.
- Managed database schema for products, users, and transactions using MongoDB.

Online Trading Expo – Event Website - [Live View](#)

- Developed responsive **React.js frontend** for online trading and fintech event platform.
- Built structured layouts to display event agenda, speakers, and exhibitor details.
- Optimized UI performance and improved navigation experience.

- Ensured **cross-browser compatibility and responsive design** across devices.

Money Expo Abu Dhabi 2026 – Event Management Platform – [Live View](#)

- Developed and optimized **React.js-based frontend** for a high-traffic global fintech event website
- Built reusable UI components and structured layouts for speakers, exhibitors, and schedules
- Integrated **REST APIs** for dynamic content rendering and real-time updates
- Improved performance through code optimization and efficient rendering techniques
- Ensured **responsive design and cross-browser compatibility** for global users

Technical Skills

Frontend Technologies: HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap, Tailwind CSS

API Integration: REST APIs, Axios

UI & Performance: Responsive Design, Mobile-First Development, Performance Optimization

Tools & Version Control: Git, GitHub, VS Code, Wordpress, Shopify, FileZilla

Backend : Node.js, Express.js, MongoDB (NoSQL), CRUD Operations

Courses & Training

Full Stack Development (MERN Stack)

Imagecon Academy | Oct 2023

- Designed and implemented web application features in collaboration with senior developers.
- Participated in debugging, code reviews, and Agile development processes.

Education

Bachelor of Engineering – Mechanical Engineering

Paavai Engineering College | 2020
